

FISCAL NOTE

HB 2038

January 24, 2000

SUMMARY OF BILL: Exempts any person in Johnson County who either constructs, installs or operates a water delivery system that provides more than 1 million gallons of water per day from having to obtain a permit.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues - Not Significant

Other Fiscal Impact - Passage of this bill could jeopardize some federal water pollution control funds, estimated at approximately \$3.2 million for fiscal 2000/01, administered by the Department of Environment and Conservation.

Assumes a not significant decrease in state revenues since one facility in Johnson County is required to obtain and pay for a Water Pollution Control permit, which is renewable, every 5 years.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
